User Reports
General
All Users
All Contacts
Count of users in the domain
Count of users in each OU
Users allowed to dial-in
User not allowed to dial-in
Users with home directory
Users with no home directory
users with thumbnail
Users with no thumbnail
Users with logon script
users with no logon script
Users with manager
users with no manager
users that are a manager
User account control value for all users
User account control is not 512 (normal users)
Users protected from accidental deletion
Users not protected from accidental deletion
Users not a member of specific groups
Account Status
Enable users
Disabled Users
Locked Users
Recently Created users
Recently Modified Users
users with account that do not expire
User with account that do expire
Users with an expire account
Users with an account set to expire in next 7 days
Users with an account set to expire in next 30 days
Account Options
Account is sensitive and cannot be delegated
Do not require kerberos preauthentication

Smart card is required for interactive logon
Users with account trusted for delegation
Users store password using reversible encryption
Password Reports
Bad password count for all users
Bad password attempts
Password recently changed
Password expiration date
Users bad password time
Users password last set date
Users that don't require a password
Users that must change password at next logon
Users with a password set to never expire
Uses that cannot change password
Users with expire password
Logon Reports
Inactive Users
Inactive Users who are enabled
Inactive Users for 90 Days+
Inactive users for 120 days
Last Logon Report
Users logon hours report
Users last logon date
Users who can log on to all computers
Users who can log on to selected computers
Users who logged on today
Users who logged on last 7 days
Users who logged on last 30 days
Users that have not logged on in last 30 days
Users that have not logged on in last 60 days
Computer Reports
General
All Computers
All Domain Controllers
All Workstations
All Servers
All Computers and OU
All Computers and IPv4 Address
All Computers with no description
Computers Password last set date
Managed computers

Unmanaged computers
Account Status
Enabled Computers
Disabled Computers
Deleted Computers
Computers created in last 7 days
Computers created in last 30 days
Computers created in last 60 days
Computers created in last 90 days
Computers modified in last 7 days
Computers modified in last 30 days
Computers modified in last 60 days
Computers modified in last 90 days
Computers trusted for delegation
Logon Reports
All computers last logon date
Computers who logged on last 1 days
Computers who logged on last 7 days
Computers who logged on last 30 days
Inactive Computers
Inactive computers for 30 days
Inactive computers for 60 days
Inactive computers for 90 days
Inactive computers for 365 days
OS
All computers by OS + count
All workstation by OS + count
All servers grouped by OS + count
Computers with non Windows operating system
Computers with Windows 10
Computers with Windows 11
Computers with Windows 7
Computers with Windows 8
Computers with Windows xp
Computers with Windows Server 2003
Computers with Windows Server 2008
Computers with Windows Server 2008 R2
Computers with Windows Server 2012
Computers with Windows Server 2012 R2
Computers with Windows Server 2016
Computers with Windows Server 2019

Computers with Windows Server 2022

General

All groups

Built-in groups

Deleted groups

Group membership report

Groups created in last 7 days

Groups created in last 30 days

Groups created in last 60 days

Groups modified in last 1 day

Groups modified in last 7 day

Groups modified in last 30 day

Groups modified in last 60 day

Groups with members

Groups with no members

Members of domain admins

Managed groups

Unmanaged groups

Security Groups

All security groups

Built-in security groups

Global security groups

Local security groups

Universal security groups

Distribution groups

All distribution groups

Empty distribution groups

Global distribution groups

Local distribution groups

Universal distribution groups

System

Groups not protected from accidental deletion

Groups protected from accidental deletion

Group Policy Reports

All GPOs

All settings disabled GPOs

All settings enabled GPOs

Computer configuration disabled

User configuration disabled

Deleted GPOs

GPOs created last 7 days
GPOs created last 30 days
GPOs created last 60 days
GPOs modified last 1 days
GPOs modified last 7 days
GPOs modified last 30 days
Link not enabled
Enforced Enabled
Block inheritance enabled
OU linked GPOs
Site linked GPOs
Domain linked GPOs
GPOs and security filtering
GPOs and WMI filtering

OU Reports

All organization units
All OUs and object count
Deleted OUs
Managed OUs
Unmanaged OUs
OUs with computers
OUs with users
OUs with groups
OUs created last 7 days
OUs created last 30 days
OUs modified last 7 days
OUs modified last 30 days
OUs with linked GPOs
OUs without members
OUs not protected
OUs protected

Security Reports

General
Admins with old passwords
Admins with Kerberos (SPNs)
Default Domain Administrator
Built-in privileged groups
Krbtgt account
Domain password policy
Fine grained password policy
Protected users

Tombstone lifetime
Forest functional level
Duplicate service principal names (SPNs)
BitLocker recovery keys
LAPS Passwords
LAPS Passwords (Legacy)
User Account Issues
Inactive account (logon over 90 days)
Inactive account (password older than 180 days)
Reversible encryption
Password no required
Password never expires
Use only kerberos DES encryption types
Do not require kerberos preauthentication
SID history
